Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Status of the Prosecution

Claim 25 has been amended. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action. Any objection or rejection or objection not expressly repeated has been withdrawn.

Claim Rejections - 35 U.S.C. § 103

Claims 25-33 and 37 are rejected under 35 U.S.C. 103(a) as being unpatentable over McCURRY et al (US 4,950,743).

The amendment to claim 25 reverses the sequence of steps (e) and (f) in the original claim. The claims remain rejected as set forth in paper no. 16. However, the amendment changes the process, so that the order of addition of catalyst is now the same as in the prior art of record.

Applicant's arguments filed January 3, 2002 have been fully considered but they are not persuasive.

Applicant first presents a general argument that the examiner's basis for obviousness stems from Applicant's specification, but does not point to any specific instances of this.

In response to applicant's argument that the examiner's conclusion of obviousness is based upon improper hindsight reasoning, it must be recognized that any judgment on obviousness is in a sense necessarily a reconstruction based upon hindsight reasoning. But so

Art Unit: 1623

long as it takes into account only knowledge which was within the level of ordinary skill at the time the claimed invention was made, and does not include knowledge gleaned only from the applicant's disclosure, such a reconstruction is proper. See *In re McLaughlin*, 443 F.2d 1392, 170 USPQ 209 (CCPA 1971).

Applicant further states:

Since the '743 reference admittedly fails to contain any teaching or suggestion relating to the use of those claimed elements . . . i.e., the use of glucose syrup; the use of glucose syrup having the claimed solids content; etc. one of ordinary skill in the art *has no reason to be motivated to modify the teachings of this reference* in the manner asserted by the Office. [Emphasis added.]

Applicant's attention is drawn to the paragraph bridging pages 3 and 4 of the previous Office action (paper no. 16) for examiner's reasoning and motivation for modifying the teaching of reference '743.

Claims 25 and 34-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over McCURRY et al (US 4,950,743) in view of GRUTZKE (US 5,648,475), as set forth in paper no. 16.

Applicant's arguments filed January 3, 2002 have been fully considered but they are not persuasive.

Applicant contends that "... the reasons for employing the allegedly taught cascade reactors of the '475 reference, in ^{combination} ~~combination~~ with the '743 reference are not found in either of

Art Unit: 1623

the prior art references . . .” Applicant’s attention is drawn to col 3, lines 19-32, as cited in the previous Office action (paper no. 16), of reference ‘475.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
